

TABLE OF CONTENTS

	Page
Section 1: Understanding Quality	
1.1 The Nature of Quality	3
1.2 Some Ways to Define Quality	4
1.2.1 Transcendent Quality	5
1.2.2 Product-Based Quality Measures.....	6
1.2.3 Manufacturing-Based Quality Measures	8
1.2.4 Value-Based Quality Measures.....	9
1.2.5 User-Based Quality Measures	11
1.3 The Quality Troika	12
1.4 The Cost of Quality.....	13
1.5 Variability and Quality.....	16
1.6 Quality and the Assurance Sciences.....	21
Section 2: Managing Quality	
2.1 Planning the Quality Culture.....	25
2.2 Measuring and Improving Current Quality.....	27
2.3 Setting Goals.....	29
2.3.1 Responding to the Customer.....	30
2.3.2 Benchmarking	33
2.4 Certification	35
2.4.1 Background	37
2.4.2 The Certification Process	38
2.4.3 ISO 9001 and Related Documents.....	39
2.4.4 Quality Principles Reflected in ISO 9001:2000	41
2.4.5 Accreditation.....	42
Section 3: Achieving Quality	
3.1 Kaizen: Continuous Improvement	45
3.2 Juran's Quality Process.....	47
3.3 Shingo's Zero Quality Control	49
3.4 Crosby's Quality Approach.....	51
3.5 Deming's 14 Points	53
3.6 Action Plans	56
3.7 Differences and Disagreements	58
3.8 Principles of Total Quality Management (TQM)	61
3.9 Quality Tools	64
3.9.1 The TQM Basic Tools.....	65
3.9.1.1 Flow Charts.....	66
3.9.1.2 Ishikawa Diagrams.....	69
3.9.1.3 Checklists	70

TABLE OF CONTENTS (CONT'D)

	Page
3.9.1.4	Pareto Charts..... 71
	3.9.1.4.1 Stratification..... 73
3.9.1.5	Histograms..... 74
3.9.1.6	Scattergrams 76
3.9.1.7	Control Charts..... 78
3.9.2	The TQM Management Tools 79
3.9.2.1	The Affinity Diagram 80
3.9.2.2	The Relations Diagram 82
3.9.2.3	The Tree Diagram..... 83
3.9.2.4	Matrix Analysis..... 85
3.9.2.5	Matrix Diagrams..... 88
3.9.2.6	Process Decision Program Chart..... 89
3.9.2.7	Activity Network Diagram..... 91
3.9.3	Miscellaneous Tools..... 93
3.9.3.1	Force Field Analysis..... 94
3.9.3.2	The "Measles" Chart..... 95
3.9.3.3	Cycle Time Management Chart 96
3.9.3.4	Multi-Vari Charts 97
3.9.3.5	Gantt Charts 98
3.9.4	Team Tools 100
3.9.4.1	Team Dynamics 101
	3.9.4.1.1 Getting Started 104
	3.9.4.1.2 Facilitator's Evaluation Tools..... 105
3.9.4.2	Idea Generators 107
3.9.4.3	Tools for Ranking Ideas 110
3.9.4.4	Mental Imaging 112
3.9.5	Poka-Yoke..... 113
3.9.6	The "Five Whys" 114
3.10	Design of Experiments 115
3.10.1	Basic DOE..... 116
3.10.2	Taguchi Methods..... 121
	3.10.2.1 Saturated Arrays..... 122
	3.10.2.2 Signal to Noise Ratios 124
	3.10.2.3 Robust Design 125
3.10.3	DOE Statistical Tools 127
	3.10.3.1 Is There Really a Difference? 128
	3.10.3.2 How Strong is the Correlation? 132
3.11	"Hassle" Reduction and Empowerment 135
3.12	Software Quality Tools 136
	3.12.1 Tools for Inspecting Software..... 138
	3.12.2 The Capability Maturity Model® 141

TABLE OF CONTENTS (CONT'D)

	Page
3.12.3 Reusable Software	143
3.12.4 "Cleanroom" Programming.....	144
3.12.5 Defect Seeding.....	146
Section 4: Measuring and Demonstrating Quality	
4.1 Useful Statistical Concepts.....	149
4.2 The Binomial Distribution	150
4.3 The Central Limit Theorem.....	152
4.4 The Normal Distribution.....	153
4.5 Measuring Quality from Samples	155
4.6 Demonstrating Quality Through Sampling	157
4.7 Statistical Quality Control	161
4.7.1 Control Charts for Variables	165
4.7.2 Interpreting Control Charts	168
4.7.3 Controlling Attributes	169
4.8 Process Variability and "Six Sigma" Programs	171
Section 5: Quality Awards	
5.1 Quality Awards By Category	177
5.2 Malcolm Baldrige Award Criteria	186
Section 6: Quality Resources	
6.1 ASQ Certification.....	189
6.2 ASQ Resources.....	190
6.3 Quality Organizations	191
6.4 Quality Publications.....	192
6.5 Quality Training	193
Appendix A: The Standard Normal Distribution	197
Appendix B: LTPD Test Plans	201
Appendix C: Acronyms, Abbreviations, and Definitions	209
Appendix D: Software Aids to Quality	231
Appendix E: Critical Values of the F Distribution For Tests of Significance	237
Appendix F: Quality Standards	241
Index	249
